

## KOLONIEN

Kolonien is a temporary home that can be built in different sizes. With its modular nature it is easily assembled or expanded as needed. Its steel frame can be covered with your choice of materials depending on the climate and function.

### EXPANDABLE

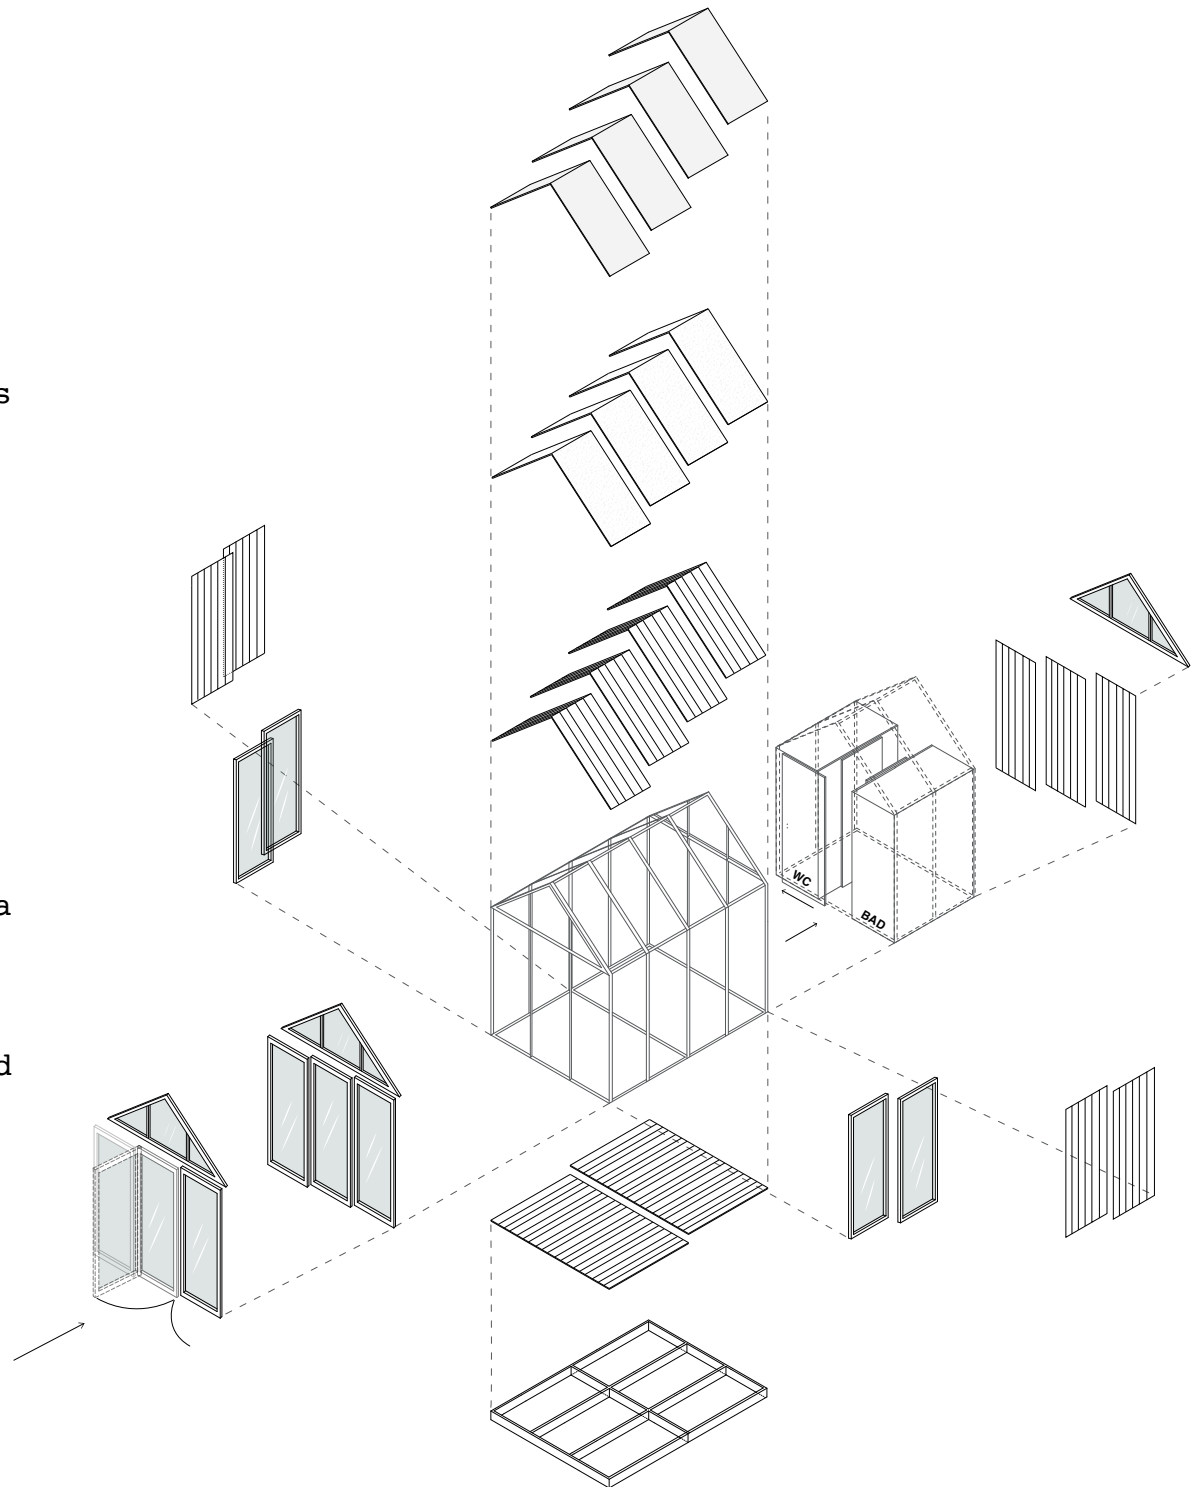

Each core segment of Kolonien is 110 x 220 cm and 330cm wide - and you can add as many as you like.

### MOVABLE

Kolonien can be packed down by just three people, transported on a simple trailer and set up again on a beach, in the city or on a rooftop within 1 day.

### FLEXIBLE

Kolonien is flexible in form and function and makes space for what you need by shifting function from private to common room.

## **INTERESTED? GET IN TOUCH.**

Kolonien (15 m2, featured on photos) sells from 27 000 Euros.

All houses are made to order and customized.

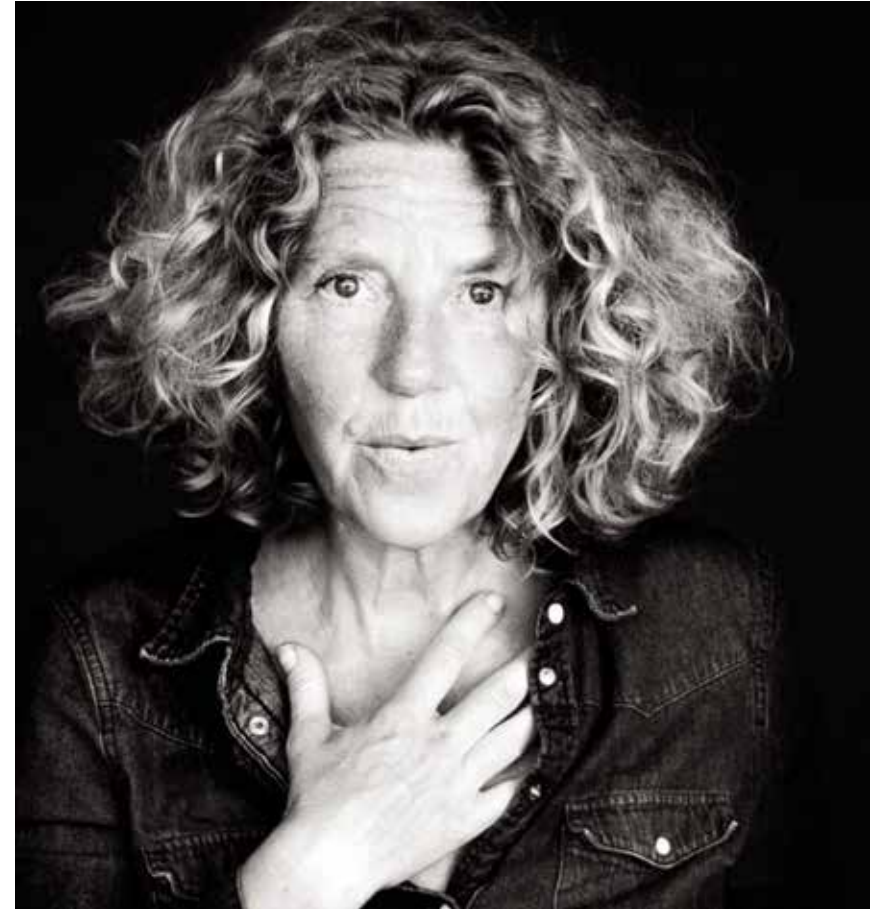

We are happy to work with you on designing the house best suited to your needs, assist with document aiding permission as well as to consult on placement on your property.

## **HOW TO GET STARTED?**

Tell me about your needs to get the process to your dream house going.

After an initial conversation we will deliver 2 design sketches and material suggestions customized to your ideas. (initial design fee: 1000 Euro, which becomes redundant if you decide to continue the process)

**LOOKING FORWARD TO HEARING FROM YOU**
